

Name: Lance Moore  
Project Area: Woodworking  
4-H age:12  
County: Mercer County

- 1. What are three things you learned or insights you gained this year from doing this project?**

I learned that you can cut the end of a screw off so that it isn't poking through a thin board.

I learned how to use polyurethane.

I learned how to screw hooks onto a board.

- 2. What would you like to describe or share about your exhibit that we can't see easily in your uploaded photos or documentation?**

It looks like it is rough and archaic looking but it is actually really smooth from polyurethane.

- 3. What steps did you take to complete this exhibit?**

First, I cut out 2 boards 18 by 7.5 inches. Then I sprayed it with polyurethane. Next, I screwed 3 hooks on each of them. Finally, I put letters that decorated it.

- 4. If you did this project again, what would you change or do differently?**

I would make the boards bigger and buy more hooks to store more mugs.

- 5. How would you apply what you have learned to your life?**

I don't have to worry about how short the screws are for my board. I can just cut them.
