

# Comerica Park Panoramic Puzzle

May 4th, 2020

10:26am-11:35am

I started putting together the scoreboard. I also completed some of the right field wall and part of the Ford Field roof. I also started on the Tigers logo behind home plate.

3:45pm-5:33pm

I started making the outfield walls and connecting them together. I connected the Chevrolet Fountain to the center field wall. I also connected the scoreboard to the left field wall. In addition, I started connecting the Ford Field letters to the upper deck. I started putting together home plate and I connected part of Broderick Towers to the Pepsi Porch. Also, I started connecting the grass in the outfield together and I started to connect the Jungle to the stands.

May 6th, 2020

7:46pm-8:36pm

I started putting together the home team's dugout as well as the visiting team's dugout. I also started on the right side upper deck. I connected the pitcher's mound to home plate.

May 7th, 2020

8:53am-11:22am

I connected some of the right side upper deck to the Pepsi Porch. I also started connecting the Grand Valley State University building to the outfield bleachers. I was also putting together the right field concessions. I did some more work on both dugouts and started the left field line. I also put together the right field lights and I started on putting together first base. I connected second base to the pitcher's mound. I was putting together third base. I connected the Renaissance Center to the Detroit Athletics Association building.

May 8th, 2020

10:40am-11:35am

I was finishing up connecting the infield together. I put together the away batting circle and connected the infield to the outfield grass. I finished up the outfield grass. I also just connected the away batting circle to the dirt behind home plate.

4:12pm-4:45pm

I started putting together the long, wrap-around scoreboards. I also started putting together the ticket marketplace signs and the seats behind home plate.

May 29th, 2020

5:52pm-6:06pm

No work accomplished. I could not find any pieces to fit.

July 4th, 2020

10:05am-10:30am

I finished more of the skyline.

July 5th, 2020

7:18am-7:31 am

I finished the fair territory of the field and continued working more extensively on the upper deck.

July 8th, 2020

12:58pm-2:20pm

I started assembling the foul ground area. I have just finished the whole field. I also did some more work on the sky and skyline.

July 9th, 2020

1:05pm-3:50pm

I connected both dugouts to the field. I connected the Ford Field roof to the left side upper deck. I worked more on the sky. I also started more on the left side upper deck.

July 10th, 2020

1:20pm-3:00pm

I finished the upper border. I also started on the lower left border. I completed more of the left side upper deck.

July 14th, 2020

3:08pm-4:12pm

I continued putting together more of the lower border. I also put together more of the seats and sky.

July 15th, 2020

4:17pm-5:39pm

I completed the sky. I also completed more of the bottom border.

July 16th, 2020

2:18pm-3:19pm

I have completed the whole left border. I have now finished the entire border. I also put together more of the seats.

July 17th, 2020

3:15pm-4:20pm

I finished more of the seats.

July 18th, 2020

11:05am-11:25am

No work accomplished.

3:25pm-5:03pm

I connected even more of the seats together.

July 19th, 2020

1:56pm-5:12pm

I connected more of the pieces of the seats.

July 20th, 2020

9:31am-11:40am

We got the last piece of the right side and I finished the puzzle with the last piece of the seating area being put in at 11:40am.

I found this puzzle on Amazon and I bought it because I was bored and needed something to do, while also being a fan of the Tigers. This puzzle was very challenging but also very fun. The puzzle took me, in total, 27 hours and 40 minutes.
