INTRODUCTION

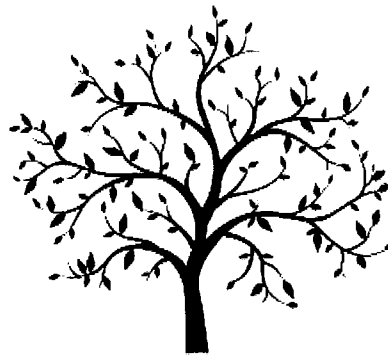

GENEALOGY DIVISION III

I'm Brea Shoaf (1) and I am 11 years old. I am division three for genealogy. This year I worked on my ancestors 16-31. These are my second great grandparents. I learned a lot about my family.

I traveled with my grandfather, William FOREMAN (6), to several cemeteries to collect original photographs. Although it was a super-hot day, I enjoyed visiting with my family. We went to the Willshire Cemetery. I found out that I was related to half the people there! Between the Painters, Lautzenheisers, Detros, and Thatchers, everywhere I looked, I was discovering my relatives. Of course, the Painters did have 11 children!

My favorite thing that I did was going through the census records to see how my families have changed over the 10 years. It was a great look into the past to discover where they moved, how their families grew, and what they did for a living.

Another thing I really enjoyed was going through some of the war ration books my mom had that were originally my second great grandparents. These were things that we talked about at school so it was like literally holding a piece of history in my hands!
